

Workshop on Wonders in Physics

The department of Physics organised a one day workshop on “Wonders of Physics” in experimental physics on 14th Feb. 2019.

Science teaching and non teaching staff and nearly 200 students attended the workshop.

Prof. P. J. Ikhankar (H.O.D. of Physics) introduced the guest and programme schedule. Principal, Dr. U. Y. Kulkarni felicitated the chief Resource Person Prof. Chakradeo.

Prof. Chakradeo explained basic concepts of Physics with the help of his colleagues Prof. Barve, Prof. Deshpande and Prof. Mehandale. He explained the concepts through demonstration. He also explained Newton’s laws, Magnetism and properties of magnetic materials, Properties of light, distribution of forces by using Newton’s cradle and demonstrated skin sensation by using electronic sensor.

A student of S.Y. BSc. Nikhil Khandkar proposed the vote of thanks.

All the teaching and non-teaching staff from the science faculty attended the workshop. All teaching and non teaching staff of Physics department took efforts to organise the programme.
